

COMMUNITY BENEFIT

Logansport Memorial Hospital's purpose remains the same in this changing world of healthcare -- to help improve the health and well-being of our community, for individuals as well as larger community groups. This purposeful work can be traced back to our mission, making "Your Health our Passion."

As a not-for-profit organization, it is our responsibility to provide programs and services that increase access to needed care for those who live here. We define these programs and services as the "community benefit" that we provide, and the overall community benefit is calculated in four different areas: Financial and In-Kind Contributions, Community Health Improvement Services, Community Building Activities, and Health Professions Education.

Financial and In-Kind Contributions	\$1,693,902
-------------------------------------	--------------------

Community Health Improvement Services	\$194,803
---------------------------------------	------------------

Community-Building Activities	\$312,049
-------------------------------	------------------

Health Professions Education	\$1,018,911
------------------------------	--------------------

Charity Care	\$714,563
--------------	------------------

Bad Debt Expense	\$3,809,582
------------------	--------------------

Unreimbursed Cost of Medicare	\$10,699,259
-------------------------------	---------------------

Medicaid Shortfall	\$4,135,938
--------------------	--------------------

The dollar amounts reflected here demonstrate how seriously we take our mission and commitment to our community.

We listen to the needs of our patient population, and respond with appropriate programs and services, investing in community health partnerships, educational programs, and uncompensated care. We also initiate and support efforts that increase access to our services and to other needed services, as well as educating future health professionals who may one day walk the halls of our campus.

TOTAL COMMUNITY BENEFIT
\$22,579,007

Logansport Memorial Hospital opened its doors in 1925, and since then, these doors have been open to the community each and every day. We exist to heal the sick and improve the health of the patients and communities that we serve. Our tradition of addressing healthcare needs and providing benefits for our community will continue for many years to come.
