

When the doctor is out,
Express Medical Center is in.

Logansport Memorial Hospital's Express Medical Center (formerly ExpressMed) is a walk-in clinic offering care for minor illnesses or injuries that occur when your primary care provider is unavailable — or that aren't serious enough for a visit to the ER. There's no appointment needed — just walk right in to be seen by one of our Logansport Memorial Hospital providers. We're here for you on days, nights, weekends, and even some holidays – providing convenient care during life's inconvenient moments so that you can continue Building Better Health.

Walk in, feel better at Express Medical Center.

No appointment necessary.

HEALTH

BUILDING BETTER HEALTH

The right place at the right time.

Unlike the emergency room where the wait can be long, a provider at Express Medical Center can see you much faster and at a much lower cost than an ER visit. But sometimes, an ER visit might be necessary. Please refer to the chart on the right to help you determine which option is best for your situation. For children under one year of age, contact your provider first — or take them to the nearest emergency room.

EXPRESS MEDICAL CENTER

OR

EMERGENCY ROOM

Fever
